

Pure performance

LOWARA® 1300 SERIES - 60HZ

 **LOWARA**
a xylem brand

Available

EASY TO SELECT, CLOSE AT HAND, RIGHT PUMP FOR YOUR NEEDS

Value for money

EFFICIENT, POWERFUL

Reliable

SOLIDS HANDLING, CONTINUOUS RUNNING

Readily available pure performance pumps

Lowara® 1300 is a series of submersible pumps that deliver pure performance at outstanding value.

Combining performance and quality in a convenient, value for money package, these pumps will help ensure the smooth running and profitability of your operation. This is why Lowara is the ideal pump for sewage and surface wastewater within municipal and commercial building applications.

Moreover, Lowara makes your choice of pump easy, it only requires three straightforward steps. We have the right pump for your needs with high availability to support your business.

The Lowara 1300 series is based on technology developed and tested in tough environments the world over. That's why you can count on these pumps for trouble-free, reliable operation.

The hydraulic design of the pumps has been proven to reduce clogging and maintain efficiency. These pumps simply work and keep on working. Day in, day out, and under harsh conditions, they won't let you down – they're Lowara® 1300.

Available Value for money Reliable

With a variety of combinations of non-clog and vortex impellers to choose from, it's easy to find a pump for your needs. The impeller design gives you efficiency and solids handling capability. This helps to ensure smooth operation and delivers savings in terms of maintenance costs and energy consumption.

All pumps in the series feature a motor designed for reliable operation in submersible applications. The motors have F-class insulation or better, which allows for

continuous running without overheating, ensuring optimal cooling and long lifetime. Additionally, the pumps can handle 15 starts per hour without problem.

Typically these pumps are installed in permanent installations. However, some models have the option of a free-standing installation so that the pump can be easily moved from one site to another. See methods of installation (page 7) for further reference.

Application areas

Municipal:

- Domestic sewage pumping stations
- Wastewater pumping stations
- Retention basins
- Storm water pumping stations

Commercial building:

- Drainage water
- Domestic sewage pumping stations
- Ground water

Tough to beat

Robust

All components are made from robust materials for easy maintenance and long life.

Powerful

Motor is specifically designed for reliable operation in submersible applications. It can run continuously without overheating - a true workhorse.

Durable

Heavy-duty bearings with long life provide peace of mind.

Environmentally friendly

Cooling system is designed to use the surrounding media to cool the pump; no use of environmentally hazardous fluids such as oils.

Safe and straightforward

Cable entry prevents both cable strain and leakage.

Smooth

The double mechanical seal provides extra reliability and protects against leakage.

Flexible

Drilled pump housing, ready for any installation method.

Installation methods and accessory kits

The Lowara® 1300 series is designed to fit your needs. You start with a bare pump and order the right kit depending on your desired installation method.

Selecting & ordering

Configure your product order and generate order number

We've made it easy for you to select and configure your pump with appropriate accessories; it's done in just three simple steps and you build your order number as you go.

1 Select the pump model ideal for your needs from the product pages that follow.

2 For every model and choice of outlet dimension there is a partially filled order number. Configure your pump from the relevant selection tables and you will automatically get the information to build and complete your order number as you go!

Right pump for your needs

Lowara 1305 Non-clog

- Maximum flow 13 l/s
- Maximum pressure 14 m
- Motor Rating 0.85 - 1.3 kW
- Outlet 50 mm
- Weight 30 kg

Lowara 1305 Vortex

- Maximum flow 10 l/s
- Maximum pressure 8 m
- Motor Rating 0.75 - 1.2 kW
- Outlet 50 mm
- Weight 30 kg

Lowara 1310 Non-clog

- Maximum flow 18 l/s
- Maximum pressure 27 m
- Motor Rating 1.8 - 2.8 kW
- Outlet 50 - 80 mm
- Weight 46 kg

Lowara 1310 Vortex

- Maximum flow 17 l/s
- Maximum pressure 19 m
- Motor Rating 1.2 - 2.8 kW
- Outlet 50 - 80 mm
- Weight 46 kg

Lowara 1315 Non-clog

- Maximum flow 55 l/s
- Maximum pressure 32 m
- Motor Rating 2.5 - 4.8 kW
- Outlet 80 - 100 mm
- Weight 95 kg

Lowara 1315 Vortex

- Maximum flow 42 l/s
- Maximum pressure 18 m
- Motor Rating 2.5 - 4.8 kW
- Outlet 80 - 100 mm
- Weight 95 kg

Lowara 1320 Non-clog

- Maximum flow 77 l/s
- Maximum pressure 46 m
- Motor Rating 3.5 - 8.2 kW
- Outlet 80 - 100 mm
- Weight 130 - 156 kg

Lowara 1320 Vortex

- Maximum flow 57 l/s
- Maximum pressure 26 m
- Motor Rating 3.5 - 8.2 kW
- Outlet 80 - 100 mm
- Weight 140 - 156 kg

Lowara 1325 Non-clog

- Maximum flow 124 l/s
- Maximum pressure 48 m
- Motor Rating 10 - 20 kW
- Outlet 80 - 150 mm
- Weight 170 - 190 kg

Xylem |'zīləm|

- 1) The tissue in plants that brings water upward from the roots;
- 2) A leading global water technology company.

We're 12,900 people unified in a common purpose: creating innovative solutions to meet our world's water needs. Developing new technologies that will improve the way water is used, conserved, and re-used in the future is central to our work. We move, treat, analyze, and return water to the environment, and we help people use water efficiently, in their homes, buildings, factories and farms. In more than 150 countries, we have strong, long-standing relationships with customers who know us for our powerful combination of leading product brands and applications expertise, backed by a legacy of innovation.

For more information on how Xylem can help you, go to www.xyleminc.com
